

## **Update: Grants Received for Family Harbor House (Transitional Housing Facility)**

**July 2, 2025**

MMHC has recently received a \$25,000 grant from the Windover Foundation. We have several other grant applications under consideration. We have also received two gifts. The Belfast United Methodist Church has kindly given us \$5000. And an anonymous donor contributed a very generous \$20,000 to our endeavor. We deeply appreciate all this support.

Construction adaptations are needed at Belfast United Methodist Church before Family Harbor House can open. Changes include erecting two walls. One wall will ensure that each family has one private room, and the other wall will separate Family Harbor House from the rest of the church lower level. We will also install two showers, a stove, a washer and a dryer. We are hopeful that this building process will start in mid-July.

Many have expressed interest in volunteer opportunities once the housing unit is up and running. The UU Church now has volunteer coordinators and they are starting to put together our first team to work at Family Harbor House.
